# About me

I'm a Scandinavian surface pattern designer and illustrator creating playful, story-rich designs inspired by nature, color, and everyday magic.

Growing up surrounded by nature and shifting seasonal colors, I developed a love for the simplicity of Nordic design. My work reflects that balance: bold yet delicate, whimsical yet calm. Whether I'm drawing garden scenes, cheerful geometrics, or cozy motifs for kids, I aim to create designs that feel warm, fresh, and full of personality.

I create pattern collections for textiles, stationery, and home décor—playful, story-driven designs ideal for licensing, collaborations, and custom projects. Inspired by Nordic simplicity, natural symbolism, and a love of color. My work blends bold visuals with a quiet charm.

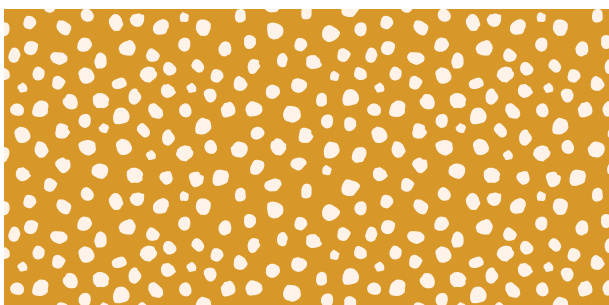

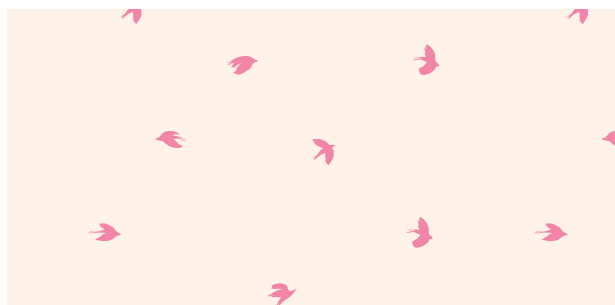

I also write and illustrate children's books, where patterns, characters, and small sparks of magic come together to tell stories full of warmth and wonder.
